

ElvaJet Onyx SB

**who can give you
high impact color?**

we can.

working for you.

Innovative sublimation technology for production printing

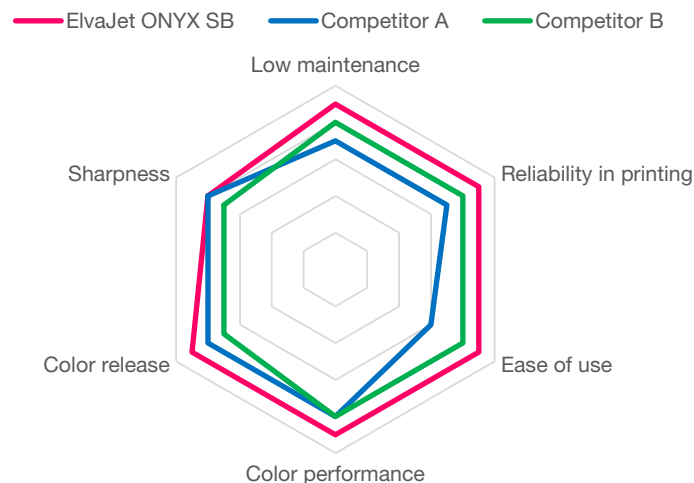

ElvaJet Onyx SB changes the way you consider sublimation printing and management of your print systems. ElvaJet Onyx SB is designed to ensure simplicity in use whilst delivering the maximum color impact and printing performance.

ElvaJet Onyx SB allows printers to convert systems quickly with minimal downtime or ink waste. Designed for highly accurate printing, ElvaJet Onyx SB reduces the need for interventions during print jobs, ensuring printer uptime, increasing productivity and reducing waste. ElvaJet Onyx SB delivers maximum ink release from a full range of transfer papers with excellent print definition and sharpness.

Key performance benefits

- Simple installation and start-up
- Optimized print performance
- Simple ink conversion with immediate printing
- Low maintenance and reduced waste
- Excellent sharpness and print detail
- Certified for Eco-Passport by Oeko-Tex

See it to believe it

Differentiation through innovation

Using the latest dispersion technology, combining knowledge of textile chemistry and the printing process ElvaJet Onyx SB allows printers across a range of markets to benefit from the best printing and visual performance.

ElvaJet Onyx SB is certified for Eco-Passport by OEKOTEX without restrictions, meaning the printed textile does not require a re-check for compliance with the regulations of Standard 100 by OekoTex if ElvaJet Onyx SB is used.
